

■ tree planting lightweight milt base

Taking advantage of the water retention of Shirasu, it was to enable the greening block.
The pavement surface temperature control effect, to mitigate the heat island phenomenon.

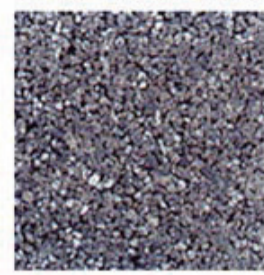

Tree planting lightweight milt base Plain type

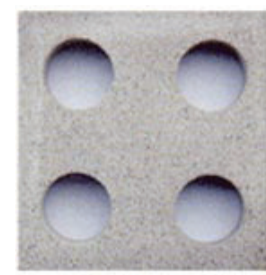

standard size : 300×300×60(80)mm

Tree planting lightweight milt base with lawn type

standard size : 300×300×80(100)mm

Tree planting lightweight milt base Plain type (SG-6-1)

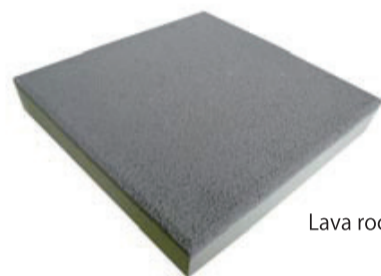

with hole type

with lawn type (SG-6-4-2)

■ lightweight milt base 2 ply type

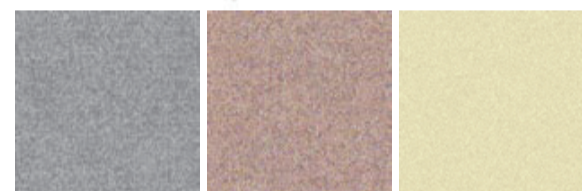

Blocks that make effective use of natural materials on the surface
To reduce the environmental impact due to the high water retention performance

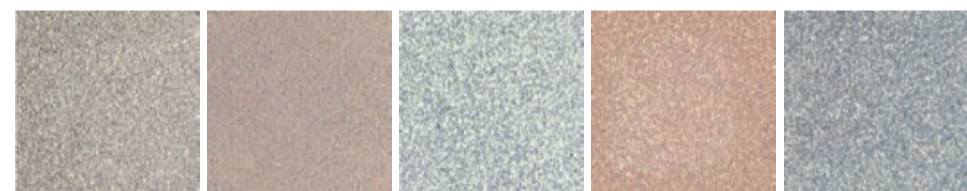

Lava rock

Shirasu Stone (3 types)

standard size : 300×300×60mm
It will be made to order production

Lava rock (SPG-6-4) Koriyama (SPG-6-5) Amami Coral (SPG-6-6)

Kozakura Sakura Iso Southern Ouiso

■ lightweight milt base eco 2 ply type

Block that has the texture of the original shirasu.
To reduce the environmental impact due to the high water retention performance

Cristal white

Shirasu Eco (3 types)

standard size : 300×300×60mm

* Custom sizes is special order available
300×300×30mm
300×300×80mm
400×400×30mm

Silver white (SPG-6-1) Light dark (SPG-6-2) Cristal white (SPG-6-3)

patent No. 3137614, 3858079,4521497
